

Parts Driver / Warehouse Support

- Do you want to work for a long established friendly family business?
- Do you like meeting people and have an outgoing personality?
- Can you work on your own initiative?
- Do you want to provide the very best customer service?

We are looking for an energetic and professional candidate who enjoys driving and interacting with our valued customers. You will provide a first class delivery service of commercial vehicle spare parts within the South East of England. When not driving, you will also perform some general warehouse duties as required. You will need to have held a UK driving licence for a minimum of 5 years (due to insurance restrictions only). Candidates must be numerate and computer literate.

Based from our new purpose built premises in Bicester, flying the flag for the MAN, VW and Isuzu brands, the successful candidate will have a "can do" attitude and be a team player. Want to join a great team and be part of our new success story?

This role is not just about driving, it also encompasses being a key team member in the parts department, providing support when required and simply just being hands on and helpful!

If you think you are the ideal candidate for this role, please apply by sending your CV and a covering letter detailing your experience to date and tell us why you want to join our journey!

Quality company vehicle supplied for all delivery duties.

When you apply for this role, you will find a very short "Attention to Detail" Test. This gives us an idea of your ability to interpret parts numbers and vehicle details. This is key to the role. Only applications that complete this very short test will be considered. There are no further tests required at interview.

Benefits:

- Bonus scheme (£600 per annum achievable)
- Secure onsite off road parking
- Uniform provided
- Covid19 Secure Workplace
- Company Pension Scheme
- Other family business benefits
- £8.72 per hour - increasing to £8.91 1st April 2021
