

ABSOLUTE BUSINESS SENSE.

All the reasons why you should
only buy MAN Genuine Parts

Q3 2021 offers
1st July –
30th September

IF IT DOESN'T SAY MAN, IT ISN'T THE REAL DEAL.

Your MAN truck is a valuable business asset. When it's out of action, it's costing you money. So, doesn't it make sense to do everything you can to maximise the time it's on the road?

That's why we recommend you always use MAN Genuine Parts, every one of which is manufactured in accordance with our strict guidelines to work perfectly with your MAN vehicle. They also guarantee maximum reliability, durability, safety and economy.

Remember, replica parts may save you money in the short term, but that's because the manufacturers won't have subjected their parts to our stringent quality and endurance tests – and that means they could be putting you and your vehicle at risk. If in doubt, look for the MAN item number which is only awarded once a part has successfully completed our exhaustive tests.

Our parts are supplied from our UK distribution centre and over 97% of them are available from our European Logistics Centre. All our parts come with a full 24-month fitted warranty that is not only free, but valid worldwide.

“Using MAN Genuine Parts keeps your vehicle in perfect condition and safeguards your investment.”

MAN GENUINE PARTS AND MAN SERVICE – STRONGER TOGETHER.

With MAN Genuine Parts combined with MAN Service, there's no better way to ensure your vehicle is completely roadworthy.

Around the UK we have over 195 trained and highly competent Parts Technicians. They undergo continuous professional development and are all focused 100% on delivering the very best customer service.

MAN GENUINE CLUTCHES.

Every component part of your MAN vehicle is subject to some form of stress or strain, but none of them have to put up with the extreme mechanical, dynamic and thermal demands that face the clutch.

All clutch plate linings and the compressing element of the pressure plate become worn eventually and heavy trailer loads, frequent manoeuvring and driving in the wrong gear simply accelerate the process. So, when it's time to

replace your clutch, MAN offers you a wide selection of MAN Genuine clutch kits, combining premium quality with attractive prices. Our kits include:

- Clutch plate
- Clutch pressure plate
- Release bearing
- Pilot bearing
- Bolts

Our MAN Genuine Parts® ecoline also includes MAN Genuine clutch kits.

Special offer
20% off

ECOLINE – GENUINE AND COST-EFFECTIVE TOO.

It's not always absolutely essential to replace a defective MAN Genuine Part® with a new part, especially if you're dealing with an older vehicle or working outside of the warranty period.

In such circumstances, MAN Genuine Parts® ecoline provides the answer.

MAN Genuine Parts ecoline are used MAN Genuine Parts from MAN vehicles that have been completely remanufactured according to the highest standards.

And because we subject them to the same quality tests as our new parts, they come with the same 24-month warranty.

Our remanufactured parts are extremely cost-effective, and as they are effectively recycled, they're environmentally friendly too.

MAN GENUINE BATTERIES.

MAN batteries are designed to meet the challenges that come with running a commercial vehicle. With their innovative PowerFrame technology and fast current consumption, they are ideal for short trips and dependable for cold starts. Their high level of resistance to corrosion increases their service life and enables a longer usage period even during idle times.

Benefits at a glance:

- Absolutely maintenance-free
- Filled, charged, ready to use
- Little self-discharge through minimised electrolyte consumption
- Long service life and high-level cycle stability
- Super-heavy-duty (SHD) design for extreme resistance to vibration.

MAN GENUINE OIL.

To keep your engine running at peak performance, choose MAN Genuine engine oil. Contact us for our latest deals.

ABSOLUTE PERFORMANCE.

Special offer
15% off

STEERING.

Steering components play a vital role in the drive and handling of your vehicle. To have optimum reliability, only use Genuine MAN parts.

SUSPENSION SHOCK ABSORBERS.

MAN Genuine shock absorbers are compatible with all MAN chassis components and assistance systems, and they correspond to the series standard for new vehicle production.

Benefits at a glance:

- Robust construction
- Highly resilient rubber materials in mounting joints and wear-proof sliding surfaces minimise wear
- High-quality base materials protect against stone damage, corrosion and damage from road salt, fuel or lubricant.

AIR SPRINGS.

MAN Genuine air springs are perfectly adapted to MAN vehicles, absorbing the vehicle's vibrations to increase driving comfort and ensure greater stability.

Benefits at a glance:

- Resistant to environmental influences such as dust or dirt
- Minimal need for maintenance
- Minimal assembly times and downtime.

SUMMER SAVERS.

MERCHANDISE.

Get set for summer with some great savings on our latest range of MAN merchandise, including our elegant MAN Travel System Kit Bag containing a high-viz vest, washbag, towel, LED torch, sports bottle and thermo mug. It's got everything you need for those longer trips.

*Please note that the beach towel, sunglasses and cap are only available from the MAN EU Store: www.man-shop.eu/en/
